Create a clear vision and bring the view to you...

Glass Vice® Products design and manufacture frameless glass solutions to compliment and enhance landscape, residential and commercial architecture.

Manufactured from the highest quality materials, to withstand all weather conditions, Glass Vice® Products provide an aesthetic finish that is guaranteed to last.

Our products help create a clear vision for balustrade, staircase, pool fence and glass fence solutions.

The patented design of Glass Vice® Products significantly reduce the installation time, as no holes are required in the glass, making it an extremely cost effective frameless glass solution.

A flexible, high quality solution for most building requirements that is fully certified in Australia, New Zealand UK/Europe and USA for residential and commercial applications.

Available throughout Australia, New Zealand & USA.
